1.2 Childcare and Parent Services (CAPS)

1.2.1 Description and Goals

The Childcare and Parent Services (CAPS) program is Georgia’s subsidized child care program administered by DECAL. CAPS assists low-income families with the cost of child care in order to support Georgia’s school readiness goals. CAPS is available in all 159 counties within Georgia.

1.2.2 Funding Source

Child care services provided through the CAPS program are funded by a combination of state funds and the Child Care and Development Fund (CCDF) under the administration of the U.S. Department of Health and Human Services (HHS), the Administration for Children and Families (ACF), and the Office of Child Care (OCC). Authorized by the Child Care and Development Block Grant (CCDBG) Act and Section 418 of the Social Security Act, the CCDF assists low-income families in obtaining child care so they can work or attend training/education.

1.2.3 Compliance with Federal Regulations

As the lead agency, DECAL is responsible for implementing a state plan that is compliant with federal regulations associated with CCDF. The CCDF State Plan serves as the agreement between DECAL, ACF, and OCC as to how programs are administered to comply with federal regulations; as well as, technical bulletins that are issued by ACF. Unless contrary to a federal law or regulation, DECAL has sole discretion on how the CAPS program is operated and how subsidy funding is allocated in Georgia. At any time, DECAL can make adjustments to CAPS program policies, procedures and funding allocations.

- The purposes of the CCDF as defined in the CCDBG Act sec. 658A are to:
o Allow each state maximum flexibility in developing child care providers and policies that best suit the needs of children and parents within the state;

o Promote parental choice to empower working parents to make their own decisions regarding the child care services that best suits their family’s needs;

o Encourage states to provide consumer education information to help parents make informed choices about child care services and to promote the involvement by parents and family members in the development of their children in child care settings;

o Assist states in delivering high-quality, coordinated early childhood care and education services to maximize parents’ options and support parents trying to achieve independence from public assistance;

o Assist states in improving the overall quality of child care services and programs by implementing the health, safety, licensing, training, and oversight standards in state law, including state regulations;

o Improve child care and development of participating children; and

o Increase the number and percentage of low-income children in high-quality child care settings.

• CCDF offers federal funding to states, territories, Indian Tribes, and tribal organizations in order to:
  o Provide low-income families with the financial resources to find and afford quality child care for their children;
  o Enhance the quality and increase the supply of child care for all families, including those who receive no direct assistance under the CCDF;
  o Provide parents with a broad range of options in addressing their child care needs;
  o Strengthen the role of the family;
  o Improve the quality of, and coordination among, child care programs and early childhood development programs; and
  o Increase the availability of early childhood development and before- and after-school care services.
